To the D.C. Chitaldrug dtd 24-L 32758 28 10 22
- him to obtain from the Chitaldrug Municipal Council a detailed scheme for filling up the trenches, if they desire to do so.

Extract from the Dewan's reply to the address of welcome presented by the members of the District Board, Chitaldrug

---

In regard to the question of resuming the Local Fund and Mohatarfa revenue which was transferred to the District Boards in 1917, the representation is not a new one At the last session of the Representative assembly, the question was discussed and Government have given the assurance that they will carefully examine District Board finances and ascertain how far the alarm and apprehensions of the District Boards that such a resumption will seriously cripple their resources are really well grounded I hope, while I am here, to look into the finances of the Chitaldrug District Board and if it is proved to my satisfaction that the resumption of those items of revenue will to very appreciable extent cripple the resources of the Board and prevent them from carrying out the large works of improvement for the benefit of the whole district which they have in contemplation, I shall certainly reconsider the matter

Extract from the Dewan's reply to the address presented by the District Board and Municipal Council, Chitaldrug

---

Project for the supply of good drinking water to the Chitaldrug town.

There is just a possibility so far as I can see from the papers that a cheaper scheme for an improved supply of water to the Chitaldrug town which may cost very much less. If that be the case - and I wish to go into the question with the Municipal Council if they will kindly meet me for discussing the matter - then in the immediate future there may not be any difficulty in financing the scheme The Municipality have a sum of nearly a lakh and a half with them at the present moment it will be impossible for His Highness' Government to promise to give a definite sum towards the new project But I give you this assurance that so far as the finances of any one year may permit, we shall try and carry out the promise of giving at least half the contribution for such improvement works in every important town in the State in accordance with a declaration made some years ago

Extract from the Dewan's reply to the address presented by the District Board and Municipal Council, Chitaldrug

---

The filling up of trenches around Chitaldrug seems to me to be somewhat of a small matter in comparison with the water supply project I have no information as to how much it is likely to cost But if the Municipality will prepare a detailed scheme and submit the estimates to Government and suggest the carrying out of the improvement say in the course of five or six years, offering themselves to come forward to give a substantial grant out of their resources I shall see if it is not possible for the Local Self-Government department to give any special grant for this work

(1) In accordance with the view held in 1921 -- that the Fort walls in the Chitaldrug Town vest in Municipality with a view to prevent haphazard removal of the stones therefrom the Deputy Commissioner was informed that the walls should be demolished in accordance with a definite programme of improvement and asked to prepare and submit a plan in consultation with the Sanitary Commissioner and not to allot sites or remove stones till this was done

(2) In April 1924 the Deputy Commissioner forwarded the recommendation of the Municipal Council that with a view to avoid heavy expenditure on this account by the Municipality, the sites on the Fort walls should be allotted for building purposes to private individuals on condition that the trenches behind the sites should be filled up by the grantees at their own cost and stated that sites were given on these conditions to 15 individuals and that definite plan would be submitted as regards the disposal of sites on the Fort walls on the remaining portion of the town

(3) He was informed that the sites were small and that no site for building be granted until plan of Town Improvement was prepared and submited to Government

(4) In his letter dated the 1st October 1924 the Deputy Commissioner supported the recommendation of the Council for a reconsideration of order cancelling the grant of the sites already

North—Cente[illegible]

Serial No

made by the Council as the grantees have substantially complied with the condition imposed and with his letter dated the 3rd October 1924 also forwarded a plan of improvement and estimate therefor amounting to Rs 10,670, half the cost thereof being met by Government The Sanitary Commissioner was consulted as to whether the sites could be granted for building purposes and what sanitary improvements if any, were required for the locality The improvement made so far and action taken did not meet with his approval and he was of opinion that the gift or sale of sites in the manner proposed will lead to no improvement and what is proposed to be done and has been done will only mar the appearance of the Town and it would be better to grant a loan to the Municipality towards the cost of demolishing the Fort wall and filling up the trench than getting the work done by the people and that no more licenses be granted for building in the locality

A copy of this was sent to the Deputy Commissioner and he was asked to send a list of persons who have filled up the trench completely

It is stated that the trench has been filled up completely only in regard to 2 sites and a building has been constructed thereon, 8 of the owners have partially filled and no attempt has been made by the rest He also stated that the observations of the Sanitary Commissioner regarding grant of sites were under the consideration of the Council

Serial No

Orders have to be passed on this reference and the reference relating to the estimate for filling up the trench in places other than those granted to private individuals The Member has ordered on the note put up in October 1924 in regard to the latter that the estimate may be approved, half the cost being met from the grant for improvement of Town and Municipal Councils if funds are available

In view of the recent orders issued divesting the Council of the ownership of the soil the whole position has perhaps to be reviewed

With the exception of the site on which a house has already been built all the other site have perhaps to be resumed, as the Municipality has no right to dispose them of and the question of leaving the walls in tact with such improvements will have to be taken up by Government, at least the other persons to whom sites have been allotted have to be asked not to exercise any right of ownership and the Municipality should be asked not to issue any licenses to them to build houses thereon The estimate put up for improvement may perhaps also be remitted back to the Council and the Chief Engineer requested to arrange through the Town Planning Division to prepare a scheme for the improvement with reference to the existing state of affairs

5b) Subd The estimate for filling up the ditch in Chitaldrug town now sent up is for Rs 13170 but this includes provision for the filling up of a ditch behind the AV School & the A H School marked C, in the plan. The execution of this work (C) according to the estimate now received amounts to Rs 2495 or Rs 2500 in round numbers, consisting as it does of 9980 Cyds @ 4as a Cyd. But an estimate for the same work (C,) has been sanctioned in GO No 4366-7/Rel 103-23-2 dated 12 23 & work is being carried out. This work has therefore to be excluded from the estimate for Rs 13170

54) Sanction has now therefore to be accorded for the filling up of the ditch at a cost of Rs (13170 − 2500) or Rs 10670

30/11 55) Further the chief Engineer's Scrutiny will make the point quite clear He may be consulted unofficially

56 Ltr 57) The D C Chitaldrug wants sanction to the estimate for Rs 10670 for filling up the ditch in the Chitaldrug Town The estimate involves a heavy sum The plan & estimate may perhaps be first scrutinised unofficially by the Chief Engineer

Dated 3rd October 1924

No

Sir,

As called for in your letters Nos L.7332/I L 21-22-12 dated 14-3-24 and L 3275/I L 21-22-25 dated 28-10-22, I have the honor to forward herewith the plan and estimate for filling up the trenches around the town of Chitaldrug, received from the President with his letter No 154 dated 23-9-24 (copy enclosed)

2 The amount of estimate as prepared by the Executive Engineer, Chitaldrug Division comes up to Rs 13, 170/- and the estimate provided for filling up the trench from Seeneerhonda to Santhebagal (marked (a) and (a2) on the enclosed plan, and onwards from Mr Rangaiyengar's house as far as Rangianabagal (marked (b2) (c1) and (c2)

3 The cost for filling up the trench behind the sites already granted by the Municipal Council i.e from Santhebagal to Mr Rangaiyengar's house (marked (b1)) has not been included in the estimate as the same was interded to be filled up by the grantees of sites themselves, at their own cost, and it may be stated that some of the grantees have already filled up the trench behind the respective sites

4 It is reported by the President that the portion of ditch behind the A V School and the A P School (marked "c") has almost been filled up, the estimate for the same, having been sanctioned by Government in their order No 4366-67/I L 103-23-2 dated 10-12

for Rs 3478/-

5 As the Executive Engineer's estimate for Rs 13,170/- includes also the cost required for filling up the portion of the ditch (marked "c-y) which comes up to about Rs 2500/-, that amount of the cost will have to be reduced from the total cost of the estimate for the reasons stated ~~above~~ in para 4 above

6 I request that you will be so good as to move Government to approve the enclosed plan and sanction the estimate for the net sum of Rs 10670/- with a grant-in-aid of half the cost of the said work from State Funds

I have the honor to be,

Sir,

Your most obedient servant

Deputy Commissioner,
Chitaldrug District.

Letter No.154 dated 23rd September 24 from the President, Town Municipality, Chitaldrug, to the Deputy Commissioner, Chitaldrug

---

With reference to your No C 193/23-24 dated 7th June '24 forwarding copy of letter No L.9462/1 L dated 2-6-24 from the Secretary to Government Local and Legislative Departments in the matter of the cancellation of certain sites and of the early submission of plans and estimates for filling up the trenches in Chitaldrug Town, I have the honor to state that the grantees of several sites on the fortwall of Chitaldrug Town have already filled up the the fort ditch and as such they have fulfilled the condition laid down on them, thereby saving to the Municipality a considerable sum of expenditure for carrying out the proposed town Improvement works In these circumstances I recommend that Government may kindly be moved to reconsider their order directing the cancellation of these sales

A copy of the resolution passed by the Municipal Council in their meeting held on 30th June 24 in the matter is herein enclosed for perusal

An estimate amounting to Rs 13170/- for filling up fort trenches from Seengeruhonda to Rangianabagalu has now been prepared by the Executive engineer, Chitaldrug Division and the same is said to include provision for filling up the trenched between Mr Chennakesavaiah's Choultry and Rangianabagal also An estimate for this portion sanctioned by Government in their order No 4366-67 L 103-23-2 dated 10-12-23 for a sum of Rs 3478/- is being worked out and the ditches behind A V School and A H School have almost been filled up. Further, as pointed above, the ditch behind the fortwall between Santhebagal and Mr Chennakesaviah's Choultry has also been filled up by the respective owners of these sited at their own cost Under the circumstances narrated above, a considerable sum would now be reduced in working out the scheme forwarded by the Executive Engineer I request therefore to be so good as to obtain the necessary approval of Government for the plan and estimate herewith transmitted

---

Deputy Commissioner,
Chitaldrug District.

3 NOV 1924

LOCAL SELF GOVT BRANCH

Sir,

With reference to your letter No.L.2024/Ml.21-22-12 dated the 8th September 1924 re filling in the trenches around Chitaldrug Town, I have the honour to forward herewith for your information a copy of letter No 445 dated the 19th September 1924 from the Executive Engineer, Chitaldrug Division.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Engineer of Mysore.

Letter No.445 dated the 19th September 1924 from the Executive Engineer, Chitaldrug Division, to the Chief Engineer of Mysore.

With reference to your No.3856 dated the 18th September 1924 forwarding copy of D.O. letter No.C.105/M1.22-23 of 31st July 1924, from the Deputy Commissioner, Chitaldrug District, to the Secretary to Government, Local and Legislative Departments, regarding disposal of estimates and plans for filling up the trenches around Chitaldrug, I have the honour to inform you that necessary plan and a modified estimate amounting to Rs 13,170 for filling up the trenches round Chitaldrug Fort were already forwarded to the President Town Municipality, Chitaldrug, in this office No.768 dated the 7th September 1924. This was with reference to his No.582 dated the 21st /23rd April 1924.

2. It may be further stated here that the original reference of the president, Municipal Council, Chitaldrug, regarding the estimate viz., No.61 dated the 6th August 1923 and the two reminders mentioned by the Deputy Commissioner as noted in the margin had already been complied with an estimate for Rs 5,400 having been sent with necessary plans in this office No.300 dated 10/11th Apr. 1924. It is not understood why these things have been ignored by the Deputy Commissioner in his D.O. letter making it appear that the whole subject was pending in this office from 6th August 1923 up to 31st July 1924.

OFFICE OF THE DEPUTY COMMISSIONER,
CHITALDRUG DISTRICT

Dated Chitaldrug, 19th March 1926

In reply please refer to
No C. 46/Ml. 25-26
Enclosures

FROM S. VENKATRANGAM, Esq, BA, BL,
Deputy Commissioner,
Chitaldrug District

To L. Nagappa Esquire Bar-at-Law,
Secretary to the Government of Mysore,
Local and Legislative Departments,
BANGALORE

Sir,

With reference to your letter No L.4110/21-22-52 dated 7th December 1925 requesting me to inspect the sites already granted to certain individuals by the Town Municipal Council of Chitaldrug on a portion of the fort wall to the east of santhebagal and report whether any changes are called for in the orders already passed by Government etc, and in continuation of my letter No.46/Ml.25-26 dated 8th February 1926, I have the honor to state that the sites in question were inspected by me in company with the Municipal Vice President, the District Medical Officer and some of the purchasers of the sites on the 13th ultimo. One Mr. M. Ranga Iyengar, Sub Postmaster of the place has already constructed a pukka building on the site granted to him by the Municipality and out of the remaining 15 sites the trench in respect of one has been completely filled up by the grantee then, no structure has been put up on it and in respect of 6 sites the trench has been partly filled up while no attempt has been made to fill up the trench by the grantees in the case of the rest

2 In view of the facts that the majority of the grantees have made earnest attempts to fulfil the conditions of the grant and have had possession of the sites for a pretty long time, I am of opinion that it would be inequitable to deprive them of the sites at this distance of time, the municipality will also be put to additional expenditure in filling up the trench if the sites are to be resumed. Moreover as it would only detract from the general appearance of the locality if the only house already constructed and the one that may be built on the portion of the trench already filled up completely are allowed to stand

I recommend that the grant already made by the Municipality be confirmed by Government subject to the following conditions so that the grantees may be compelled to construct decent buildings speedily and thus improve the beauty and the sanitary condition of the locality.-

1. Buildings should be erected as per plans and designs approved by the Municipality.

2. The structures should be completed within one year of the grant of permission by the Municipality.

3. A sufficiently high basement at least 3 feet above road level should be provided

4. Existing excavations and pits in the rear portion (northern portion) of the sites should be filled up completely up to adjacent ground level at the builder's cost

5. Sufficient space should be left at the rear for opening a conservancy lane.

6. Roots of trees if any over the sites should be thoroughly searched for and removed.

7. Necessary space should be left between houses to admit free light and air

8. Suitable drains should be erected and connected with the existing municipal drains

9. No privy pits should be built in the back yards. Latrines should be properly paved with slabs and arrangements made for the daily removal of night soil.

3. If decent houses are constructed in a row on these sites on the sanitary principles suggested above, the locality would be almost as good as an extension and will add to the beauty of the town. I therefore request that Government may be moved to kindly revise their order of the 2nd June 1924 cancelling the sale of these sites and confirm the grants made by the municipality to the present owners, namely 16, subject to the conditions mentioned in para 2 above

4. The estimate and plan for filling up the trench around the town received with the reference under reply are resubmitted herewith As already requested in this office letter No.C.105/Mil.22-23 dated 3rd October 1924, the estimate may be sanctioned and a moiety of the cost made available from the State funds as Government grant with a view to enable the carrying out of the work at an early date

I have the honor to be,
SIR,
Your most obedient servant,

Deputy Commissioner,
Chitaldrug District.

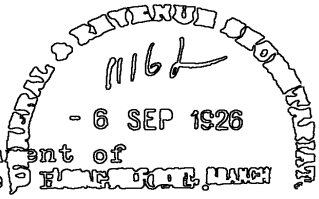
No C 7.5 7-4

Enc

Office of the Sanitary Commissioner
with the Government of Mysore,

Bangalore, dated the 3rd Septr. 1926.



From

B Mahomed Usmon, Esq , L M. & S.,
Sanitary Commissioner with the Government of
His Highness the Maharaja of Mysore

21-22-56

B Nagappa, Esq., Bar-at-Law,
Secretary to the Government of Mysore,
Local and Legislative Departments, BANGALORE

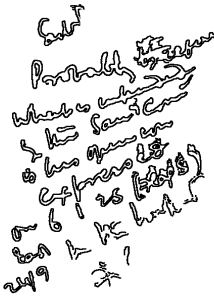
In continuation of the correspondence ending with my D O letter No C 757-3 dated the 24th July 1926 in the matter of granting sites for the construction of houses near the Fort Wall at Chitaldrug, that I inspected the locality once again on the 24th August 1926

2 The recommendation now made by the Deputy Commissioner in his letter No. 46/Mn. 25-26 dated the 19th March 1926 addressed to you) is that the grant of sites already made by the Municipality may be confirmed by Government subject to the conditions that (1) buildings are erected within one year as per approved plans and designs, (2) a sufficiently high basement be required to be provided and (3) the usual arrangements be made for conservancy, drainage &c But the objections raised by me in my un-official note dated the 8th January 1926 remain unanswered

3 The main trouble is the unsuitability of the sites for buildings even after reclamation, unless after the lapse of several years for the ground to settle down If the houses have to be built within one year cracks are likely to appear very soon as in the existing buildings As a matter of fact, since my last inspection on the 20th December 1924, the compound I referred to in my un-official note had sunk down still further so that the owner had to demolish it and put up another in its

place Even the buildings unconnected with the present scheme but which happen to be in proximity to this area on the other side of the moat have shared - although in a less degree - in the insa Unstability noticeable in the building which has already been constructed.

4 Moreover, the question of the satisfactory reclamation of the area in its entirety will still remain unsolved, even if the few people that build houses are required to demolish portions of Fort walls and fill up the pits here and there It was urged that the demolition of the Fort wall would ~~furnish~~ release a strip of firm land about 30 feet broad Even granting this, the buildings cannot be restricted to this narrow bit of land



5 In these circumstances, I regret I have still to adhere to the opinion expressed in my communication dated the 8th January 1926 I note that the Deputy Commissioner lays stress on the inequitability of depriving the gantees of their sites at this distance of time. But I venture to think that it is impossible to be swayed by a sentiment of this kind, with the tangible evidence before us of the utter unsuitability of the area for putting up dwellings.

I have the honor to be,

Sir,

Your most obedient servant,

SANITARY COMMISSIONER, M G

A R M.

Sir,

With reference to Government order No.L.2230-8/11.150-25-24 dated 3rd October 1925 allotting from the State Budget a sum of Rs 10000 for the current official year for distribution among the several Municipal Councils in this District for improvement works in their respective towns, I have the honor to state that the plan and estimate for Rs 10870 for fifteen unions in the Chitaldrug Taluk have already been submitted to Government with the request that half the cost of the work may be granted from state funds the other half being met from Municipal Funds (vide this office letter No.C5-26 dated 16th March 1926). As the plans and estimates for the drainage schemes in the towns of Hiriyur and Holalkere and for other improvements in the remaining towns are not ready at present, I request that the estimate for ditch filling work at Chitaldrug may kindly be sanctioned a grant of Rs 5400 out of the above allotment of Rs 10000. Arrangement will be made to make necessary funds available for the work from Municipal already agreed to by the Council.

2. Proposals have also been called for from the Presidents of the other Municipal Councils in the District for the utilisation of the balance which will be distributed among them according to their needs. The result of action taken in the matter will be reported in due course.

I have the honor to be

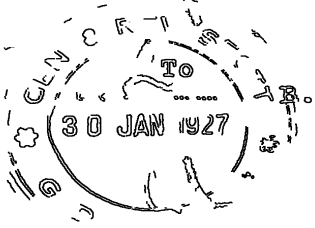
No. A-6-C 2599/26-27

Office of the Deputy Commissioner,
Chitaldrug District
Dated Chitaldrug, 27th January 1927.

From

D Srinivasa Iyengar Esquire B A ,
Deputy Commissioner,
Chitaldrug District.



To

R. Nagappa Esquire Bar-at-Law.,
Secretary to Government,
Local & Legislative Departments,
B a n g a l o r e.

Mr 21-22-60

Sir,

With reference to your letter No.L.4719 dated 20th January 1927 returning for scrutiny by the Superintending Engineer, the estimate and plans for filling up the ditch in the Chitaldrug town, I have the honor to state that the estimate has been forwarded to the Superintending Engineer for scrutiny and return. As it will take sometime to get the estimate duly sanctioned by Government after necessary scrutiny, I am afraid that the amount of Rs 2000 set apart for the above work (vide my letter No.A-6.C.2599/26-27 dated 13th/14th December 1926) may not be worked out before the end of the current official year, if restricted only to this item, of With a view to avoid lapse of the amount generously granted by Government for improvement works, I am requesting the President, Town Municipal Council, Chitaldrug, to propose, in consultation with the Municipal Council, any other urgent improvement works that require grant-in-aid so that the said sum of Rs 2000 together with the reserve of Rs 1230 which has not been till now applied for by the other Municipal Councils in spite of repeated requisitions may be usefully devoted to these works.

I have the honor to be,

S I R,

Your most obedient servant,

D. Srinivasa Iyengar

Deputy Commissioner,
Chitaldrug District.

A-6.C 2599/26-27.

Office of the Deputy Commissioner,
Chitaldrug District.
Dated Chitaldrug, 7th March 1927

From

The Deputy Commissioner,
Chitaldrug District

To

The General Secretary to Government,
Bangalore.

Sir,

In continuation of my letter No A-6.C.2599/26-27 dated 27/28th January 1927 re the distribution of Government grant for improvement works in the Chitaldrug Town, I have the honor to state that the Municipal Council have proposed to take up the improvement works noted in the enclosed statement at a total cost of Rs 4302 and requested that the amount may be made available out of the State grant sanctioned for the District in consideration of the fact that they have resolved to undertake immediately the work of carrying out the test of yield of the water supply in the Anklimutt Valley and to meet the entire cost of the work viz Rs 4700 from their own funds.

I have, in company with the Vice President, the Executive Engineer and also some of the Municipal Councillors, inspected the localities wherein the proposed improvement works are to be carried out and am of opinion that they are of urgent necessity and importance

Taking into consideration that the Municipal council have to incur heavy expenditure out of their funds during the current year, the available amount of Rs 3230 from the total grant of Rs 10000 has been allotted for the improvement works proposed by the Council, the balance being met from their funds

So far the full grant of Rs 10000 sanctioned for the District has been distributed and the Presidents concerned have been instructed to utilise the grant fully before the close of the current year.

With a view to enable me to place the grants at the credit of the Municipalities concerned as the works progress, I request that early sanction of Government may kindly be obtained to the single

Statement showing the urgent improvement works in the Chitaldrug Town Municipality

to be undertaken during the year 1926-1927
